PASTA FROM 100% PURE SEMOLINA

Vermicelli HELIOS, one of the most delicious and purest greek pasta, holds concealed a great history: The successful story of the HELIOS brand name.

HELIOS, the pasta industry, was established in 1932 in the Elefsis area and began then to produce its famous varieties. The success of the HELIOS pasta products was so great that soon later, HELIOS was relocated in ATHENS, in a privately owned factory, which was a rare event for those days.

The growth of the industry continued with a

very rapid pace so as to include today:

7.500 m² of space, 80 tons of daily pasta production output, with an annual capacity that exceeds 20,000 tons.

The famous, delicious taste of the HELIOS pasta products - and of course the HELIOS Vermicelli - is so widely known, that today not only in Greece, but in many other parts of the world the demand for HELIOS pasta is great. Today HELIOS products are exported to the U.S., Canada, countries of the EC and the Middle East.

PASTA FROM 100% PURE SEMOLINA

Production takes place in the most sanitary conditions, with super modern, automatic machines that completely eliminate intervention by human hands.

This process ensures that Vermicelli HELIOS will be fully sterilized, with a perfect appearance and stable quality that preserves its distinct, delicious taste.

The same delicious taste that is a characteristic of all

HELIOS products and a quality found only in Greek hard grained wheat which is one of the best in the world!

The Vermicelli HELIOS is packaged in air-tight packs made of special polypropylene, in sizes of 250 and 500 gr. that guarantee the excellent sanitary condition and the perfect protection of the product.

The Vermicelli HELIOS is exported in carton boxes that contain up to 6 kilos, from special, hard cardboard that keeps the product intact during transportation and storage.

With Vermicelli HELIOS you can be sure that you are offering your clients a healthy, nourishing, quality food product, for young and old alike.
